General Work Policies

Scheduling

Because of the fumes emitted during the refinishing process, residents, pets and vendors should not be in the unit while our technician is working. Occupied units are usually scheduled as the first job of the day and may require more advanced notice to schedule than a vacant unit. Typical arrival time is 8:00 a.m. to 12:00 noon; normally we will give an a.m. or p.m. time frame for vacant units. Please call the day of your scheduled appointment if you need a more accurate time frame. Due to time restraints and odors for surrounding residents we will not schedule any refinishing job after 3:00 p.m.

Days of Work

Our office is open Monday through Friday 7:00 am. – 5:00 p.m. to schedule work. Technicians work Monday – Friday. Saturday work is available under special arrangements.

Area Prep, Care and Maintenance, Limited Warranty

Every property is responsible for reading the Area Preparation Sheet, Care and Maintenance Sheet, and Limited Warranty. CBR recommends placing copies in each move-in packet and reviewing with every tenant who has a refinished surface in their unit to alleviate any problems and warranty issues. If you have any questions about these documents, please contact your rep or the office.

Occupied Unit Fee

Due to increased material and time spent to protect residents' belongings in an occupied unit, we must charge an additional fee per unit. This includes units with residents' belongings moved in whether or not they are fully moved in or occupying the unit full time. Please give all residents the Area Preparation Sheet a few days prior to the scheduled job.

Non-Slip Surfaces

Commercial Bath Refinishing strongly suggests the installation of a non-slip surface on refinished tubs to avoid slipping. Occasionally the bottom of the tub will be slicker than the original. We are able to install a non-slip surface for an additional fee. Any non-CBR non-slip mat may void our warranty; please refer to the Care and Maintenance sheet for greater detail. This is optional; however CBR will not assume liability for any accidents and non-warranty issues.

Trip Fees

So that we may serve our customers better and keep costs low we ask that you cancel any jobs 24 hours prior to the scheduled day. A Trip Fee may be charged if we cannot complete the job after the tech's arrival due to conflicts with other vendors, property deciding not to do the work, or residents unable to leave the unit.

Masking Removal / Quality Control

In most cases we schedule our technicians to remove masking paper and perform basic clean up the following day. Some properties prefer to do this themselves. It helps CBR if we are notified the following day if you have already removed the paper or if there is a problem with the job. Occasionally we are unable to make it out to the property the following day. If it is essential we come back the following day please talk to the tech the day of the job to ensure the Quality Control (Q/C).

Shower Doors

CBR does not normally remove shower door tracks before refinishing bathtubs or shower stalls. If you would like us to remove them we cannot be responsible for any damage. There is an additional charge to remove and replace doors as well as filling in the holes left by the door tracks. Please schedule this service when you place your order.
